

**A METHOD AND SYSTEM FOR PRESENTING EVENT FLOWS USING SEQUENCE  
DIAGRAMS**

ABSTRACT

5 A method and system for presenting event associations between  
events from one or more event flows on a display screen of a  
computer, the method comprising: constructing a sequence diagram  
representation, the representation having timelines for the  
10 event flows and directional paths between the timelines for the  
event associations; and, displaying the representation on the  
display.
